

José Manuel Robles A.

PHYSICS STUDENT - AGE: 25

 Mexico City, Mexico

 +52 735 165 0965

 jose.robles@cinvestav.mx

 @manuroag.bsky.social

I am a M.Sc. Physics student working on a research and development project for my thesis involving AI, physics, and biology.

as current degree from
Cinvestav

And I am a young physicist looking for exciting and challenging interdisciplinary projects worldwide.

SKILLS AND TECHNOLOGIES

My main contribution to my work lies in the implementation of Artificial Intelligence.

LANGUAGES

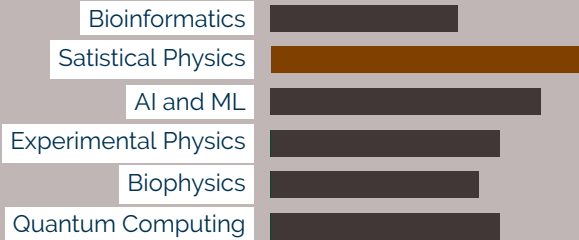

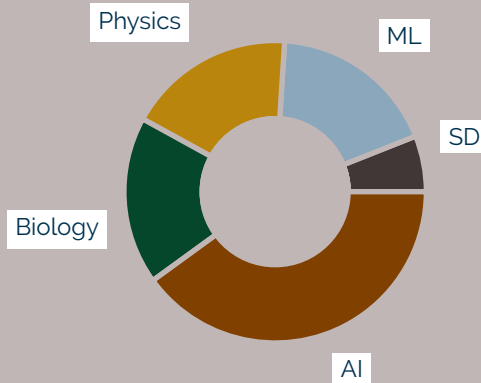

Spanish (native)

English (C1)

French (B1)

In addition to my strong foundation in physics, I possess several skills and knowledge in other areas.

As a tool for my research I've gained some useful insight into CS, mainly in Python and Linux OS.

NumPy PyTorch Biopython Sklearn Ubuntu

2025 ACADEMIC ENGAGEMENTS

- 5/2025 - **Complex Neural Networks** and **GenAI** courses at CS Department, Cinvestav.
- 7/2025 - **AI+Science Summer School** by The University of Chicago. Paris, France.
- 9/2025 - Expected **completion of Master's thesis.**

EXPERIENCE AND EDUCATION

2025

Experience Events Education

Beginning of Thesis project:
11/2024 **AI-driven Prediction of Circular Dichroism Spectra of Proteins.**

Experimental project in Soft Matter laboratory involving Digital Video Microscopy, Image Processing and Data Analysis: **Brownian-particle motion inside Lipid Vesicles.**

Bioinformatics Project: **Radius of Gyration in Alpha-Helical and Beta-Sheet Proteins.**

Beginning of Master of Science in Physics at Cinvestav.

Preparatory courses and admission tests at Cinvestav.

Semester at Computer Research Center of IPN: **Algorithm Design** and **Quantum Computing** courses.

Graduation of Bachelor Studies in Physics and Mathematics from IPN.

Durham University International Research School: Collaborated with an interdisciplinary team to develop and successfully defend a research proposal addressing Sustainable Development Goals (SDG).

Teaching assistantship at Computer Research Center of IPN.

QWorld Quantum Computing and Programming Summer School.

2021
